A friendly community in Northern Ontario's famous Canadian Shield

Waterfront Park Walking Trail

Enjoy the waterfront of Minisinakwa Lake. Imagine yourself in times past as you pass by the historical site of the Poupore sawmill. The old fire chimney is the most obvious remnant but at the shoreline you will see bits and pieces of machinery, chains, metal and other 'artifacts'.

At the end of the trail, is the public sand beach and swimming area. A large picnic shelter is provided along with new wash-

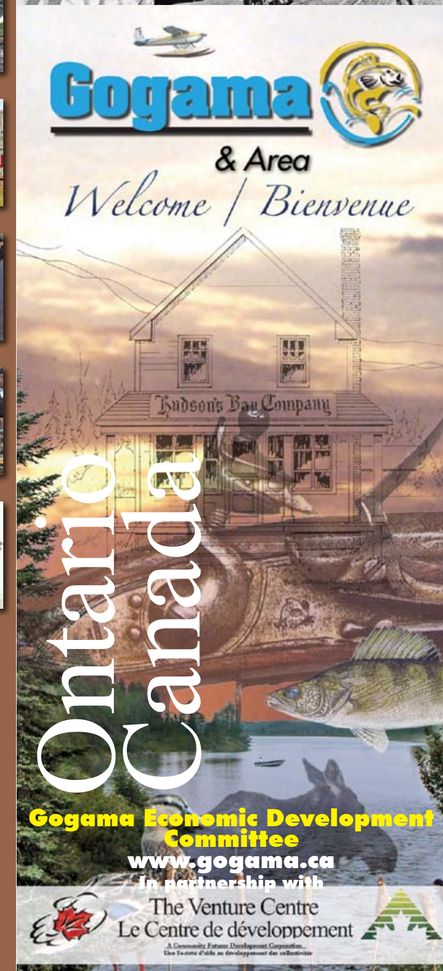
Gogama Heritage Museum
Hudson's Bay Store

Museum Restoration

The Hudson's Bay Company store shown above has undergone a major restoration to become the Gogama Heritage Museum. Gogama is the only Ontario community with two original HBC stores still standing.

The importance of the HBC store in communities throughout the North was significant – often the only means of obtaining supplies. Fur trapping by First Nation people and non-natives is celebrated.

The Legend of Joe Laflamme


"The north has always had room for big characters that created a big drama around their otherwise ordinary hardworking lives. Joe Laflamme was one of these characters. Known as "Mooseman" and "Wolfman", he earned his reputation by skillfully and courageously domesticating the wildlife that roamed the bush around Gogama. His reputation quickly grew as word of his sensational exploits spread, first from town to town throughout the North, then from city to city throughout the South" ("MOOSEMAN – Hero or Heretic" by Marek Krasusk)
